WHISKEY FLIGHT MENU

007 Bond - 45

Bottled-in-Bond Act of 1897 are rules that require spirits like whiskey to be aged and bottled according to a set of legal regulations. The primary purpose of the Bottled-in-Bond Act of 1897 is to guarantee that the product the consumer was buying was really whiskey, according to a standardized definition.

The Bottled-In-Bond Act stipulated that the whiskey must be the product of one distilling season from one distillery, aged in a federally bonded warehouse for at least four years, and bottled at 100 proof. In effect, it was America's first consumer protection law, pre-dating the Pure Food and Drug Act. These four hand selected bonded bourbons are the best at their craft and have been producing consistent quality bourbons since 1897. Enjoy these award winning high quality bourbons.

The Buffalo Trail - 45

Buffalo Trace distillery, based in Frankfort Kentucky, has been operating for over two centuries. It has historically been known by several names, including the George T. Stagg Distillery and the Old Fashioned Copper (O.F.C.) Distillery. Its namesake bourbon brand, Buffalo Trace Kentucky Straight Bourbon whiskey, was introduced in August 1999. The property was listed on the National Register of Historic Places on May 2, 2001, and designated a National Historic Landmark on March 11, 2013.

Over those two centuries, Buffalo Trace distillery has weathered many elements such as floods, fires, tornadoes, and even Prohibition. Throughout, the American family-owned Buffalo Trace Distillery survived and never compromised on its quality.

Let's embark on this journey and taste the elements that have imparted their mark in each of these award-winning bourbons.

Rye Not - 45

These two types of whiskey - Rye & Bourbon - and both are very popular, but they have major differences in flavor.

The technical difference between rye whiskey vs bourbon is in its production method, which results in a difference in flavor for each type.

Bourbon is a specific type of American whiskey that is made from at least 51% corn and aged in oak barrels. The name bourbon comes from Bourbon Country, Kentucky: the region where the spirit was invented. Today over 95% of the bourbon produced is made in Kentucky.

Rye whiskey is a type of whiskey made with a majority of the grain rye. This term refers to either American rye whiskey, made of at least 51% rye mash.

But the more important question is: what are the flavor differences between rye whiskey vs bourbon? In general, rye is known for its spicy finish and bourbon is a little sweeter and rounder. Of course, this does vary based on brand! We've selected four of our favorite Rye whiskeys for you to enjoy!

Get Weller - 65

Weller bourbons were largely unknown until the connection to Julian Van Winkle was established. (William Weller hired the famous Julian Van Winkle, who would later become better known as "Pappy.") Coincidentally his company, W.L. Weller & Sons, later merged with the A. Ph. Stitzel Distillery which was owned by Van Winkle. These four bourbons are some of the top-scoring bourbons around, and rarely available for tasting. If you like what you taste, talk to our bar manager. Through our relationship with our distributors, we may have an extra bottle for you to purchase.

The Wrangler - 55

Allow our bartenders guide to you through our collection of 150+ bottles of popular and often-times rare bourbons. Our collection has been curated through our relationship with a variety of distributors as one of the busiest bars in San Francisco; we often get the first pick of a rare spirit and limited releases. We'll be happy to help you choose four whiskeys and pour you 1 oz tastings for each.

Each flight includes 4 tastings, 1 oz each
